REVENUE FROM INVESTMENTS

The Board considers an investment program to be a critical ingredient of sound fiscal management. Therefore, the Board authorizes an investment program for the purpose of securing revenues for the support of the District's educational program. All transactions involving the District's funds (except employee benefit trust funds) and related activity of any funds shall be administered in accordance with the provisions of this policy and accompanying procedure.

The investment program shall be administered in a way that will ensure:

1. A continuous process of temporary investing of all idle moneys available for investment purposes.
2. The use of an open competition system of bids and /or quotes to obtain the maximum yield on all investments from both in-district and out-of-district financial institutions;
3. That all District investments will be in compliance with the law;
4. That all non-insured depositories using school district funds provide a statement to the District of their collateral in the form of a list of their securities pledged at market value.

The primary objectives of the District's investment activities, in priority order, shall be:

1. Safety – Safety of principal is the foremost objective of the investment program. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio.
2. Liquidity – The District's investment portfolio shall be structured in such a manner as to provide sufficient liquidity to meet all operating requirements/obligations that might be reasonable anticipated.
3. Return on Investment/Yield – The District's investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, commensurate with the District's investment risk constraints, the cash flow characteristics of the portfolio, and legal restrictions for return on investments.
4. Public Trust – The Board of Education and school officials should avoid any investment transaction or practice which in appearance or fact might impair public confidence in their stewardship of public funds.

The Board authorizes the District Bookkeeper to direct all activities associated with the investment program in such manner as to accomplish the objectives of this policy. The District Bookkeeper shall be further authorized to execute, in the Board's name, any or all documents relating to the investment program in a timely manner and to confer with reputable consultants regarding investment decisions when necessary.

DISTRICT FUND BALANCE

Purpose

The Board of Education recognizes the need to maintain an operating reserve in the general fund for the following purposes:

1. Hold adequate working capital to meet cash flow needs during the fiscal year
2. Reduce the need for short term borrowing
3. Serve as a safeguard for unanticipated expenditures of the District
4. Show fiscal responsibility to maintain a high credit rating which will help reduce future borrowing costs

Any excess of revenues and other financing sources over expenditures and other financing uses at the end of the fiscal year will be added to the District fund balance. The District will strive to maintain a general fund balance of not less than 26% of subsequent year's operational expenditures. If the District, as of June month-end of a given fiscal year, shows an operating fund balance below 26% of the subsequent year budget, the Board will take proactive actions to raise the district fund balance.

Long-Term Goals

The District's long-term goals for fund balance is to achieve and maintain a general fund balance that would alleviate the need to short-term borrow for operational cash flow needs. Fund balance in excess of this goal may be used for one-time expenditures or unforeseen costs (i.e. damages). The general fund balance shall not be used for recurring costs in the operating budget.

Financial Disclosures

Fund balance amounts will be reported in conformance with generally accepted accounting principles and shall be reclassified not less than the end of each fiscal year for general purpose financial statements. The district shall report inventories, long-term receivables and amounts legally or contractually required to be maintained intact as non-spendable. The fund balance for the spendable portion of permanent funds and balance, if any, in the special revenue trust funds, debt service funds, food service fund, and other funds established by regulatory authority shall be classified as restricted.

The School Board directs a commitment of general fund balance in an amount equal to the difference between expected health benefit costs and the aggregate stop-loss insurance attachment point, to the extent such commitment does not create a negative unassigned fund balance. The Board may, from time to time, commit additional amounts of fund balance to a specific purpose. Such action shall be taken in open meeting and require the approval of a majority of the Board. Commitments of fund balance, once made, can be modified only by majority vote of the Board.

The School Board authorizes and directs the superintendent, or designee, to assign the fund balance, to the extent such assignment does not create a negative unassigned fund balance, as follows:

- An amount sufficient to liquidate open encumbrances that are reasonably expected to result in an expenditure in the subsequent year and
- An amount estimated to be sufficient to cover the cost of unsettled labor agreements, if any.
- An amount estimated for labor costs incurred prior to recognition of revenue in the subsequent year.
- Unrestricted Community Service fund balance shall be assigned for future community service.

FIREARMS AND OTHER WEAPONS

It is the policy of Darlington Community Schools to provide a safe and healthy environment for all persons on its premises or attending any of its activities or functions.

To aid in reaching that goal, the District shall strictly enforce a policy that, to the extent permitted by law, limits the possession, use, or storage of firearms and other weapons by students, employees, and other visitors on school property, in or on school vehicles, and at school-related activities. Although the Wisconsin Carrying Concealed Weapon (CCW) Law generally allows individuals with training and registration to carry concealed weapons in some public places, there are specific laws that make such concealed carry illegal when it occurs in or around schools in which education of children occurs and on other property owned or operated by the District, and the District is not required to post signs in order for such prohibition of firearms and weapons (concealed or otherwise) to apply in such locations.

In furtherance of the above goals, it is the policy of the District that all persons are prohibited from possessing, being armed with, storing, or using a firearm or other weapon, whether unconcealed or concealed, in or on grounds of a school, on school premises, in or on school vehicles, or at school-related activities, unless otherwise specifically permitted by law. This prohibition applies to all students, employees, parents, guardians, or other visitors at all times.

This policy applies to firearms (as that term is defined under Wis. Stat. s. 948.605(1)(ac) and 18 U.S.C. s. 7151(a)(3)), dangerous weapons (as that term is defined under Wis. Stat. s. 948.61(1)(a)), and weapons (as that term is defined under Wis. Stat. s. 175.60(1)(j)), unless state law otherwise specifically restricts the District from prohibiting such weapons. Examples of weapons under this policy include, but are not limited to: guns, knives, martial arts devices, explosive devices, chemical agents (including pepper spray), biological agents, and clubs. This policy also applies to the possession of any facsimile firearm that could reasonably be expected to alarm, intimidate, threaten, or terrify another person.

Any entity that contracts with the District shall ensure the safety of District students by ensuring that, to the extent permitted by law, the possession, carrying, use, or storage of weapons at any building owned by the contractor where the students may be present pursuant to the contract.

All employees are also prohibited from possessing or carrying weapons in their employment or during any part of the course of their employment, including on school field trips or during other activities that are not held on school grounds. Individuals who volunteer for any school-related function shall also be prohibited, unless specifically authorized by law, from possessing or carrying weapons in the course of their volunteer activities.

Students found to be in violation of this policy are subject to disciplinary action that may include suspension and/or expulsion from school and/or legal action. Any student who brings a firearm or weapon to a school shall be referred to the criminal justice system or juvenile delinquency system.

Employees found to be in violation of this policy are subject to disciplinary action that may include suspension and/or termination and/or legal action consistent with any applicable bargaining agreement. Any employee who reasonably believes that an employee, visitor, student, or other person has a weapon in violation of this policy, the employee must report such belief to their supervisor.

Visitors found to be in violation of this policy will be removed from the premises and/or be subject to legal action.

2. Except as otherwise provided, any purchase costing \$3,000 or more, but \$15,000 or less, may be made at the discretion of the District Administrator and must be supported by at least three written price quotations unless it is determined that a local business with a proven track record of success and fairness is available, with notification to the Board. In the event that less than three price quotations are received, documentation supporting attempts to solicit a minimum of three quotes shall be retained. When emergency repairs are necessary in order to prevent the closing of any school, repairs may be approved without first obtaining written price quotations. All written price quotations will be retained according to relevant retention laws.

The School District will keep all deposits over the FDIC \$250,000 covered with pledged collateral.
