

INTRODUCTION

From time to time, Federal and/or State legislation, or Department of Public Instruction rules and regulations newly promulgated, or local needs and concerns require the adoption of new policy or lead to the necessity to modify or enlarge existing policy.

Procedurally, the District has determined that such newly created, modified, or enlarged policy statements be incorporated in their section directly after Board adoption.

Such statements are to remain in this Section until such time as they are incorporated in an appropriate Section of the Policy Book.
