

STUDENT ATTENDANCE

PHILOSOPHY

The Darlington Community School District wants all students to attend school regularly. From this interest it has developed a commitment to do whatever it can to help realize this goal.

It has been demonstrated time and again that achievement in school is related to regular attendance. Failure to attend school not only has an adverse effect on learning, but it also helps contribute to a feeling of alienation and non-participation. Simply stated, attending school for a child is comparable in importance to an adult reporting to his/her job. Regular attendance should be a goal of every student.

The Darlington Schools will devise procedures regarding attendance that demonstrate a commitment of care and concern for the student's effort. This commitment includes scheduling procedures which minimize student course conflicts, course content that meets student needs and motivates them, and an involvement of students in curricular and co-curricular activities that will help them feel a sense of belonging. This commitment through curriculum includes devising alternatives to traditional courses and traditional teaching methods to reach the diverse needs of students.

The Darlington Schools will provide formal and informal communication with the home about the role of the parent or guardian in assuming responsibility for regular attendance. The combined efforts of the professional staff, students, and the home are needed to promote regular attendance.

Strategies to promote regular attendance should focus on positive methods that are most productive.

COMPULSORY ATTENDANCE AGE

- A. In accordance with state law, all children between 6 and 18 years of age must attend school full-time until the end of the term, quarter, or semester in which they become 18 years of age unless they have been excused or has graduated from high school. [s. 118.15 (1) (a), Stats]

- B. The School Board may not grant a high school diploma to any pupil unless, during the high school grades, the pupil has been enrolled in a class or has participated in an activity approved by the school board during each class period of each school day or the pupil has been enrolled in an alternative education program. This requirement does not, however, prohibit a school board from establishing a program that allows a pupil enrolled in the high school who has demonstrated a high level of maturity and personal responsibility to leave the school premises for up to one class period each day if the pupil does not have a class scheduled during that class period. [s. 18.33 (1) (b), Stats]

This information will be submitted to the district administrator, who shall notify the state superintendent of the determination. [s. 118.16(s) (b), Stats]
- D. The "School Attendance Officer" in each school shall notify the parent or guardian of a child who has been truant, and direct the parent or guardian to return the child to school no later than the next day on which school is in session or to provide a legal excuse. The notice under this paragraph must be given before the end of the second school day after receiving a report of an unexcused absence and may be delegated to office staff using the mail or a telephone call of which a written record is kept. [s. 118.16(2) (c), Stats]

STUDENT ABSENCES AND EXCUSES

- A. The responsibility for regular school attendance of a student rests upon the student's parent(s) or guardian.
- B. All excused absences require parent/guardian/legal custodian verbal or written verification which is to be submitted to the school attendance officer, or designee, in advance of the absence or prior to readmittance to school.

The school attendance officer is empowered to approve an absence as being excused for any student for these kinds of reasons:

1. Evidence that the student is not in proper physical or mental condition to attend school or an educational program. The district may request the parent or guardian to obtain a written statement from a physician or licensed practitioner as proof of the physical or mental condition of the student. Such excuse shall be made in writing, shall state the period of time for which it is valid, and shall not exceed 30 days.
 2. An illness in the immediate family which requires the absence of the student because of family responsibilities.
 3. Medical, dental, chiropractic, optometric or other valid professional appointments. (Parents or guardians are requested to make appointments during non-school hours.)
 4. A death in the immediate family or funerals for close relatives.
 5. Family trips that can be taken only during the normal school term. The intent of this statement is to provide opportunity for students to accompany their parent(s)/guardian on a vacation which cannot be scheduled when school is not in session. A parent/guardian shall be required to notify the school attendance officer, or designee, prior to leaving on vacation and of the pending absence for the purpose of reviewing the student's attendance record and overall performance record. Student vacations or trips without parent/guardian accompaniment are not excused absences.
 6. A court appearance or other legal procedure which requires the attendance of the student.
 7. A quarantine as imposed by a public health officer.
 8. Attendance at special events of educational value as approved by the school attendance officer, or designee.
 9. Approved school activities during class time.
 10. Special circumstances that show good cause which are approved in advance by the school attendance officer, or designee.
- C. All students with excused absences will be given the opportunity to make up work missed in accordance with the following guidelines:

1. It is the student's responsibility to contact the teacher(s) to make arrangements for making up work missed during an absence from school.
2. Students who miss classes for reasons that are determined to be excused will be given the opportunity to make up work missed within the accepted time frame.
3. Teachers will be asked to grant the number of days absent plus one for makeup time. This provision applies to all work assigned during absence(s).

UNEXCUSED ABSENCES

Any student absent from school without a parent or guardian's consent will have such absence deemed unexcused. Students who are absent from school with the consent of their parent(s) or guardian, but whose absence does not fall under the reasons listed above shall be considered unexcused. In such cases, the student will be permitted to make up classwork missed. The student, on his/her return to school, may be expected to submit a written statement signed by his/her parent or guardian explaining the reason for the absence if previous contact was not made. On the basis of this statement, the school attendance officer, or designee, may determine whether to excuse a previously unexcused absence.

Students with unexcused absences may work on and make up missed instructional presentations and assignments. Students are responsible to learn and master information and material presented during their unexcused absence.

All students with excused absences will be given the opportunity to make up work missed in accordance with the following guidelines:

1. It is the student's responsibility to contact the teacher(s) to make arrangements for making up work missed during an absence from school.
2. Students who miss classes will be given the opportunity to make up work missed within the accepted time frame.
3. Teachers will be asked to grant the number of days absent plus one for makeup time. This provision applies to all work assigned during absence(s).

All students with an unexcused absence will be permitted to make up an examination missed during an absence.

Revised: July 15, 2013

SUSPENSION/EXPULSION OF STUDENT

- A. The principal or superintendent may impose a temporary suspension on a student for failure to comply with Board policies and/or administrative rules and regulations. Such suspensions shall be in accord with prevailing legislation and law. Suspensions may be invoked periodically if deemed essential to the welfare of the school. Parents will be provided a written notification of suspensions which explains the reasons and stipulations for readmission.

- B. The Board of Education may expel a student. Any student who shall engage in violent, abusive, indecent, profane, boisterous, unreasonably loud or otherwise disorderly conduct under circumstances in which such conduct tends to cause or provoke a disturbance or have an unwholesome influence on other students, shall be subject to immediate expulsion from school. Before expulsion action the Board of Education shall hold a hearing on the matter whereby the parents and student will be given an opportunity to be heard. Failure on the part of the parents or guardian to attend such a hearing will not prevent the Board from expelling the student. No expulsion shall be for more than the remainder of the current year. Principals are not required to admit students who have been expelled from other schools.

- C. Married students may attend classes without restriction. Married students will be subject to all school policies, rules, and regulations to which other students are subject.

Pregnant students will be encouraged to continue their academic work by whatever means appear most feasible. The District will strive to insure that pregnancy does not cause ongoing education to stop.

BEHAVIOR AND CONDUCT OF STUDENTS

- A. The behavior and conduct of students attending schools of the District shall reflect those standards of good citizenship, high morality, self discipline, and responsibility for one's own actions which are expected of all members of our Democratic society.
- B. The Board of Education believes that while the opportunity to earn an education is a right of all people it is also a privilege with responsibility. The right must be earned by attaining a standard of achievement which is commensurate with personal abilities and capacity. It is the belief of the Board of Education that should a student fail to perform those duties required of him upon attendance at school he may be denied the privilege of attending.
- C. Each principal shall be required to develop a list of rules and regulations pertaining to his school. The rules and regulations when developed shall be presented to the Board of Education at the beginning of the school year for approval and shall be printed in the student handbook and distributed to all students. Thereafter any changes shall be presented to the School Board for approval. Students are expected to obey the rules and regulations developed by the principal and such other rules which are established by the Board.
- D. The administrative rules shall apply whenever pupils are in school, attending a school activity, in transit to or from any school activity, or going to or from school.
- E. The following policy statements relative to student conduct and behavior are intended to serve as a guide to assist the administration in developing and implementing specific rules and regulations.
 - 1. Students are to respect constituted authority. This shall include conformity to school rules and regulations and those provisions of law which apply to the conduct of juveniles or minors.
 - 2. Citizenship in a democracy requires respect for the rights of others and implies cooperation with all members of the school community. Student conduct shall reflect good citizenship.
 - 3. High personal standards of courtesy, decency, morality, clear language, honesty, and wholesome relationships with others shall be maintained. Respect for real and personal property and personal self-respect shall be expected of all students.
 - 4. Every student who gives evidence of sincere desire to remain in school, to be diligent in studies, and to profit by the educational experience offered will be assisted in every way possible to achieve scholastic success.
 - 5. It is understood that rules developed by the administration will not be all-inclusive. Therefore, the administration shall take such action as is necessary and not forbidden by law to insure the discipline and orderly conduct of school operations. Under certain circumstances a student's conduct may necessitate physical intervention by a member of the staff. It is noted that reasonable disciplinary action up to and including physical intervention and corporal punishment is supportable, though not encouraged.

STUDENT INTERVIEWS

- A. Individual students may not be interviewed while at school by any person except an employee of the District without the approval of the principal.
- B. No interview shall be granted unless it is deemed essential to the welfare of the child or as may be required by the Court. An employee of the school district may be present during such an interview.

SEARCH AND SEIZURE

Although student lockers are considered property of the Darlington Community School District, the district expects students to assume full responsibility for the security of their lockers. Periodic general inspections of lockers may be conducted by school administrator or his/her designee for any reason at any time without student consent and without a search warrant. Searches are authorized in the district for the purpose of maintaining order and discipline in the schools and to protect the safety and welfare of students and school personnel.

Locker searches are to be conducted by the building principal or his/her designee. The administrator/designee may be in the company of the law enforcement personnel and/or a member of the faculty. School officials may seize any items that are dangerous, believe to be stolen, or are illegal during the search. Reasonable searches among the personal belongings of the student contained within the locker may be conducted where there are reasonable grounds to believe that the search will provide evidence that the student has violated or is violating the law or school rules. Any items that are seized during the search will be safeguarded until determination has been made by the appropriate authorities for disposition of the items. The search will be documented by school officials. The adult student or the parent(s)/guardian of a minor student shall be notified of items removed.

An administrator/designee accompanied by a faculty member of the same sex of the student and/or the police liaison officer may conduct a search of a students' person, purse, duffel bag or similar articles if the search is based on reasonable suspicion, based on personal observation or reliable information from a third party, that the student has dangerous, stolen, or illegal items or substance in his/her possession. Such a search may occur only if there is inadequate time based on the nature of the situation to contact the police. School authorities should remain sensitive so as not to invade the privacy of students any more than necessary to achieve the purpose of the search. The results of the search will be documented by school officials. The adult student or the parent(s)/guardian of a minor student shall be notified of items removed.

Strip searches are illegal and will not be condoned by the school district at any time. If the nature of the problem is so serious or severe that this type of search is to be considered, law enforcement agencies will be contacted immediately.

VEHICLE SEARCHES

Students are permitted to park on school premises as a matter of privilege, not of right. The administrator/designee may conduct routine patrols of the student parking lots. The interior of a student's vehicle, when on school premises, may be searched if there is a reasonable, clearly stated suspicion to believe that illegal, unauthorized or contraband items are contained inside. The student driver or another individual shall be present whenever practicable during the search.

HARASSMENT COMPLAINT PROCEDURES

If any person believes that he/she has been harassed or has knowledge that a harassment policy violation has occurred, he/she may bring forward a complaint in accordance with the informal and/or formal procedure outlined below. The Board of Education encourages the informal resolution of harassment complaints to the extent possible.

PROCEDURE

Any person who believes he/she has a valid basis for a harassment complaint may discuss the concern with a teacher, counselor, school psychologist, or the building principal. If discussed with someone other than the principal, the complaint should be referred to the principal. The principal will investigate the complaint and attempt to resolve the matter as appropriate to the situation. If the complainant is not satisfied with the principal's response and/or action, he/she may initiate a formal complaint according to the procedure listed below.

Step 1: A written report regarding the harassment complaint shall be prepared by the complainant and signed. This complaint shall be presented to the building principal, who serves as district equity coordinator. It shall be the responsibility of the Equity Coordinator to see that the complaint is promptly and thoroughly investigated. If the Equity Coordinator is the subject of the complaint, the complaint shall be referred to the district administrator for investigation and action.

Upon completion of the investigation, the equity coordinator shall determine the appropriate action to be taken regarding the harassment complaint. The action taken shall be consistent with legal requirements and established Board policies. The equity coordinator shall inform the complainant, in writing, of his/her determination regarding the complaint within fifteen (15) school/business days.

Step 2: If the complainant wishes to appeal the determination made in Step 1, he/she may submit a signed statement of appeal to the district administrator within ten(10) school/business days after receipt of the equity coordinator's response to the complaint. (If the complaint was handled by the district administrator in Step 1, the appeal shall go to the Board as outlined in Step 3.) The district administrator shall meet with all parties involved, formulate a conclusion, and respond in writing to the complainant within fifteen (15) school/business days.

Step 3: If the complainant remains unsatisfied with response in Step 2, he/she may appeal through a signed, written statement to the Board within ten (10) school/business days of his/her receipt of the district administrator's response. In an attempt to resolve the complaint, the Board shall meet with the concerned parties and their representatives at the next regular Board meeting or within fifteen (15) school/business days of the receipt of such appeal. A copy of the Board's disposition of the appeal shall be sent by the district clerk to each concerned party within fifteen (15) school/business days of this meeting.

Step 4: If, at this point, the complaint has not been satisfactorily settled, further appeal may be made to the appropriate governmental agency as applicable to the type of harassment complaint (e.g., State Superintendent of Public Instruction, Equal Rights Division of the Department of Workforce Development, U.S. Office of Civil Rights) and/or the court having proper jurisdiction.

DISSEMINATION OF HARASSMENT COMPLAINT PROCEDURES

The adopted harassment complaint procedures shall be disseminated to students and employees annually to inform them about the process by which they can make a harassment complaint. The information shall be published in student and staff handbooks, or disseminated through other appropriate means determined by the building principal.

MAINTENANCE OF COMPLAINT RECORDS

The building principal shall keep a log of all informal harassment complaints received and the actions taken.

BULLYING

Introduction

The Darlington Community School District strives to provide a safe, secure and respectful learning environment for all students in school buildings, on school grounds, and school buses and at school-sponsored activities. Bullying has a harmful social, physical, psychological and academic impact on bullies, victims and bystanders. The school district consistently and vigorously addresses bullying so that there is no disruption to the learning environment and learning process.

Definition

Bullying is deliberate or intentional behavior using words or actions, intended to cause fear, intimidation or harm. Bullying may be repeated behavior and involves an imbalance of power. The behavior may be motivated by an actual or perceived distinguishing characteristic, such as, but not limited to: race, color, religion, gender, age, national origin, veteran status, disability, physical appearance, genetic information testing, family & medical leave, sexual orientation and gender identity or expression.

Bullying behavior can be:

1. Physical (e.g. assault, hitting or punching, kicking, theft, threatening behavior)
2. Verbal (e.g. threatening or intimidating language, teasing or name-calling, racist remarks)
3. Indirect (e.g. spreading cruel rumors, intimidation through gestures, social exclusion and sending insulting messages or pictures by mobile phone or using the internet – also known as cyber bullying)

Prohibition

Bullying behavior is prohibited in all schools, buildings, property and educational environments, including any property or vehicle owned, leased or used by the school district. This includes public transportation regularly used by students to go to and from school. Educational environments include, but are not limited to, every activity under school supervision.

Procedure for Reporting/Retaliation

All school staff members and school officials who observe or become aware of acts of bullying are required to report these acts to the school counselor and/or principal.

Any other person, including a student who is either a victim of the bullying or is aware of the bullying or any other concerned individual is encouraged to report the conduct to any school employee or volunteer.

Reports of bullying may be made verbally or in writing and may be made confidentially. All such reports, whether verbal or in writing, will be taken seriously and a clear account of the incident is to be documented. A written record of the report, including all pertinent details, will be made by the recipient of the report.

The school official receiving a report of bullying shall immediately notify the school district employee assigned to investigate the report. The following school district employees have been identified as the investigators: school counselor and/or principal.

There shall be no retaliation against individuals making such reports. Individuals engaging in retaliatory behavior will be subject to disciplinary action.

Procedure for investigating reports of bullying

The person assigned by the district to initiate an investigation of the bullying report shall, within one school day, interview the person(s) who are the victim(s) of the bullying and collect whatever other information is necessary to determine the facts and the seriousness of the report.

Parents and/or guardians of each pupil involved in the bullying will be notified and given an opportunity to be interviewed prior to the conclusion of the investigation. The district shall maintain the confidentiality of the report and any related pupil records to the extent required by law.

Sanctions and supports

If it is determined that students participated in bullying behavior or retaliated against anyone due to the reporting of bullying behavior, the school district administration and school board may take disciplinary action, including: suspension, expulsion and/or referral to law enforcement officials for possible legal action as appropriate. Pupil services staff will provide support for the identified victim(s).

Disclosure and Public Reporting

The policy will be distributed annually to all students enrolled in the school district, their parents and/or guardians and employees. It will also be distributed to organizations in the community having cooperative agreements with the schools. The school district will also provide a copy of the policy to any person who requests it.

Records will be maintained on the number and types of reports made, and sanctions imposed for incidents found to be in violation of the bullying policy.

An annual summary report shall be prepared and presented to the school board, which includes trends in bullying behavior and recommendations on how to further reduce bullying behavior. The annual report will be available to the public.

ASSESSMENT POLICY

The assessment of student academic performance is critical to the Darlington Community School District. Standards-led education demands that assessment data be collected, analyzed, and interpreted from a variety of sources. Essential to a standards-based educational program is a balanced assessment system that includes formative, benchmark, and summative strategies that measures student progress and performance of the standards and priority outcomes. The philosophy of the Board is for all students to achieve optimal learning based on high expectations and considerations of their abilities and needs. Administrators and faculty recognize that students have diverse capabilities, interests, and individual patterns of growth and learning. Therefore, the Darlington Community School District believes it is important to have as much accurate knowledge of each student as is possible through Core Values, Standardized Assessments, 4K-12 Priority Outcomes and Standards, Classroom Assessments, and Accountability Measures. This approach exemplifies a balanced, comprehensive, and instructionally relevant assessment system that values our relationship with all students. This multi-tiered system provides meaningful information about student progress, student performance, and instructional effectiveness. Additionally, such a system promotes higher achievement levels and prepares students to be life-long learners and compassionate, contributing members of society.

TECHNOLOGY POLICY

K-12 STUDENTS

Purpose

The Darlington Community School District provides access to electronic networks, including access to the internet, as part of the District's instructional program to enhance teaching and learning. The use of the District's property must be for educational and research purposes consistent with the educational objectives of the District. To further these objectives and help ensure equity in educational opportunities for all students, the District shall assign District-owned mobile devices for student use at school and under established conditions, off school premises. For purposes of this policy, "mobile devices" include, but are not limited to, laptops, iPads, netbooks, and Chromebooks. The District reserves the right to monitor and access all use of or content on the District's electronic learning devices and networks. No person or user should have an expectation of personal privacy in connection with their use of or content stored in, created, received or transmitted over any District property, including its electronic learning devices and networks, unless such right is guaranteed by statute or law.

In order to protect the integrity of the District's property and to protect the interests of the District and its students the District prohibits (1) use that causes congestion or disruption to the District's electronic learning devices and networks; (2) searching, retrieving, transmitting or viewing any content in emails or other communications that were not intended for that person; (3) unauthorized software use or downloading or installing unauthorized software, programs or files; (4) use of the network for non-District business including commercial or political activities; (5) engaging in any illegal or inappropriate conduct, including, but not limited to copyright infringement, plagiarism, piracy, harassment, intimidation, threats, defamatory conduct, or misrepresentation including the unauthorized use of passwords or identities of other persons.

Description of Security Measures

The internet provides access to a wide range of material. The District expects that staff will blend thoughtful use of the Internet throughout the curriculum. Because technology is constantly evolving, it is impossible for school personnel to review and pre-select all materials that are appropriate for the use of students and employees. The District approaches appropriate internet usage in the following ways:

1. Filtering - To the extent possible, the District shall use technology protection measures that allow it to meet the requirements of the Children's Internet Protection Act, including the use of a filter to protect against access to:
 - a. Material that is, by definition, obscene (section 1460 of title 18, U.S. Code)
 - b. Child pornography (section 2256 of title 18, U.S. Code)
 - c. Material that is harmful to minors (further defined in the Children's Internet Protection Act)
2. Supervision - Since no technology protection measure will block all inappropriate material, the District emphasizes the importance of supervision. It is the expectation that all District staff will supervise users of information technology resources, including the Internet.

3. Education - Education about online behavior, including interacting on social networking sites as well as issues surrounding cyberbullying awareness and response will be covered in the curriculum each school year.

Administration, Monitoring, and Privacy Rights

The District owns its electronic learning devices, its networks, and content on those electronic learning devices and networks. The District may enforce the operation of technology protection measures at any time and/or location and during any person's use of the District's network. To ensure system integrity and appropriate use of information technology resources, the District reserves the right to monitor, inspect, store, and copy any information transmitted, stored, or received using information technology resources. In certain limited circumstances reserved to the discretion and decision of the Superintendent, Principal or designee, the technology protection measures may be disabled, circumvented, or minimized for those demonstrating a bona fide research need to access such filtered or blocked materials, or for other lawful purposes.

Statement Prohibiting Use Related to Discrimination, Harassment, and Defamation

The District prohibits use of its computer system for any purpose in violation of the District's discrimination and anti-harassment policies. All forms of harassment through the use of technology commonly referred to as cyberbullying, are unacceptable and viewed as a violation of this policy. Cyberbullying is the use of technology to harm other people, in a deliberate, repeated, and hostile manner by sending or posting messages and/or images. The District's computer system may not be used to defame others or disclose sensitive personal information about others.

Copyright Infringement of Software

The District prohibits the unauthorized use, downloading, installation, or copying of software on the District's computer system. All software used, downloaded, installed or copied must be approved by the District. All users must comply with applicable licensing agreements and copyright laws, and copyrighted material may not be used or shared without authorization from the publisher.

Description of Other Unacceptable Uses

District resources are to be used for school-related administrative and educational purposes. The user is responsible for his or her actions and activities involving technology. Some examples of prohibited uses include, but are not limited to, the following:

- Searching for or deliberately viewing, listening to or visiting websites containing inappropriate material or any material that is not in support of educational objectives, such as profane material, obscene material, sexually explicit material, and pornography.
- Attempting to vandalize, damage, disconnect or disassemble any network or computer component.
Attempting to gain unauthorized access to the District system or to any other computer system through the District system, or beyond an individual's authorized access. This includes attempting to log in through another person's account or accessing another person's files without their permission.

- Searching for or creating security problems as this may be construed as an unauthorized attempt to gain access, i.e., computer hacking.
- Using District resources for purposes of plagiarism, theft, infringement and other illegal or illicit purposes.
- Installing software without permission of the Superintendent or using District software in a manner inconsistent with the District's interests, license agreements and applicable laws.
- Bypassing or attempting to circumvent network security, virus protection, network filtering, or policies.
- Revealing personal data of students and staff (example: PIN, social security number, credit card numbers, addresses, phone numbers, etc.).
- Using the system for purposes unrelated to the interests of the District such as use for commercial purposes or personal pleasure or gain.
- The possession of pagers or two-way communication devices shall be governed by the rules and regulations of the Student Handbook.

In the event a user has any questions regarding whether a use of the District's property is appropriate under this Policy, then the user must contact the Superintendent, principal or designee, for direction.

Use of Social Networking Sites

Certain Web services, such as Moodle, wikis, podcasts, RSS feeds and blogs that emphasize online educational collaboration and sharing among users, may be permitted by the District. However, such use must be approved by the Superintendent, principal or designee, followed by training authorized by the District. Users must comply with this policy as well as any other relevant policies and rules during such use.

Electronic Devices

When using school-owned electronic devices, or personal electronic devices that are connected to District equipment, users are subject to all technology use policy provisions and regulations that apply to the use of District technology equipment and the network. Additional regulations that apply to electronic devices include, but are not limited to, the following:

- Students shall only use school-owned electronic devices during school hours or activities. Such devices shall be the property of the district and may be copied, reviewed, and audited as deemed necessary by the District.

- Students shall never use any school-owned or personal electronic device that can be used to capture, record or transfer images in private designated areas including locker rooms and bathrooms.

Student Creation of Web Content

Students are prohibited from creating public web content without the approval of an instructor. When appropriate for educational purposes, instructors may create websites for students to contribute to and maintain. Such websites will be monitored by district staff and any inappropriate activity by students will be subject to the consequences described in this policy.

Consequences of Misuse

A student who intentionally violates any of the rules outlined in this policy will face possible punishments including, but not limited to:

TECHNOLOGY CONCERNS FOR STUDENTS WITH SPECIAL NEEDS

- A. A student's need for assistive technology shall be determined on a case-by-case basis. If the Individualized Educational Plan (IEP) team determines that a particular assistive technology device is required for the student to be provided a favorable benefit from his/her education program, the technology must be provided to implement the IEP.
- B. Assistive technology may be provided as special education, related services, or supplemental aids and services for students with disabilities who are educated in regular classes.
- C. The District is responsible for evaluation in areas in which assistive technology may be a factor. Determination of need for assistive technology will be determined by the following process:
1. Identification of difficulty the student is experiencing and discussion of possible causes for the difficulty. This includes a review of existing information and data. During this review the IEP Team decides other information necessary to make an informed decision about the need for assistive technology.
 2. If existing data does not provide all needed information, team members gather baseline data:
 - The team reviews the problem that is now clearly identified, generates possible solutions, and develops a trial plan of the solutions.
 - During a specified time frame, the trials are completed and data is collected.
 - The team analyzes new data and makes decisions about the longer term use or permanent acquisition of one or more assistive technology tools.
 3. If specific assistive technology is identified as being needed, it is written in the student's IEP.
- D. Those students having special needs but not requiring a formal IEP according to law will also be considered for assistive technology devices and/or services on a case by case basis to be determined by the following process:
1. Identification of difficulty the student is experiencing and discussion of possible causes for the difficulty by individuals or a team comprised of classroom or special education teacher, guidance counselor, librarian, technology teacher, and/or building principal. This includes a review of existing information and data. During this review a team decides other information necessary to make an informed decision about the necessity for assistive technology.
 2. If existing data does not provide all needed information, team members gather baseline data:
 - The team reviews the problem that is now clearly identified, generates possible solutions, and develops a trial plan of the solutions.
 - During a specified time frame, the trials are completed and data is collected.
 - The team analyzes new data and makes decisions about the longer term use or permanent acquisition of one or more assistive technology tools.
 3. If specific assistive technology is identified as being needed, a request is made of the appropriate district staff for consideration and procurement.

MCKINNEY-VENTO HOMELESS POLICY

Children and youth, including unaccompanied youth who meet the Federal definition of homeless, will be provided a free appropriate public education in the same manner as all other students of the District. To that end, students who are homeless will not be stigmatized or segregated on the basis of their status as homeless and will be assigned to the school serving those non-homeless students residing in the area in which the homeless child is actually living. The District shall establish safeguards that protect homeless students from discrimination on the basis of their homelessness.

Homeless children and youth are defined as individuals who lack a fixed, regular, and adequate nighttime residence, and include those who meet any of the following criteria:

- A. Share the housing of other persons due to loss of housing, economic hardship, or similar reason (referred to as “Doubled-up”);
- B. Live in motels, hotels, trailer parks, or campgrounds due to lack of alternative adequate accommodations;
- C. Live in emergency or transitional shelters;
- D. Are abandoned in hospitals;
- E. Are awaiting foster care placement;
- F. Have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;
- G. Live in a car, park, public space, abandoned building, substandard housing, bus, or train station, or similar setting.

Additionally, pursuant to Federal law, migratory children who are living in circumstances described in A-G above are also considered homeless.

Children, youth, and their families who are homeless shall be provided equal access to the educational services for which they are eligible, including preschool programs administered by the School District.

The District shall remove barriers to the enrollment and retention of students who are homeless in schools in the District. Students who are homeless shall be enrolled immediately, even if they do not have the necessary enrollment documentation such as immunization and health records, proof of residency or guardianship, birth certificate, school records, and other documentation.

Students who are homeless will be provided services comparable to other students in the District including:

- A. Transportation services;
- B. Educational services for which the homeless student meets eligibility criteria including services provided under Title I of the Elementary and Secondary Education Act or similar State or local programs, educational programs for children with disabilities, and educational programs for students with limited English proficiency;
- C. Programs in vocational and technical education;
- D. Programs for gifted and talented students;
- E. School nutrition programs;
- F. Before and after school programs.

In addition to notifying the parent or guardian of the homeless student or unaccompanied youth of the rights described above, the District shall post public notice of educational rights of children and youth experiencing homelessness in each school.

At the request of the parent or guardian, or in the case of an unaccompanied youth, the local homeless liaison, transportation shall be provided for a homeless student to and from the school of origin as follows:

- A. If the homeless student continues to live in the School District in which the school of origin is located, transportation will be provided in accordance with District policy/administrative guidelines and Federal requirements.
- B. If the homeless student moves to an area served by another district, though continuing his/her education at the school of origin, the district of origin and the district in which the student resides must agree upon a method to apportion responsibility and costs for transportation to the school of origin. If the districts cannot agree upon such a method, the responsibility and costs must be shared equally.

The District Administrator will appoint a Homeless Liaison who will perform the duties as assigned by the District Administrator. Additionally, the Liaison will coordinate and collaborate with the State Coordinator for the Education of Homeless Children and Youth as well as with community and school personnel responsible for the provision of education and basic needs services to children and youths who are homeless.
